2000 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM (SHOPP)

EXECUTIVE SUMMARY

May 12, 2000

The 2000 State Highway Operation and Protection Program (SHOPP) was prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP. The 2000 SHOPP is a four-year program of projects for fiscal years, 2000-01 through 2003-04, which have a purpose of traffic safety, roadway rehabilitation, roadside rehabilitation or operations related to the State Highway System.

The 2000 SHOPP provides \$3.6 billion for 2000 SHOPP four-year period. This funding level is consistent with the 2000 State Transportation Improvement Program (STIP) Fund Estimate, approved by the California Transportation Commission (CTC). Selection of new projects was based on policies included the 1998 Ten-Year State Highway System Rehabilitation Plan.

The state highway system is aging and its use is increasing. Immediate needs are statewide. The increased emphasis on roadway rehabilitation initiated in the 1998 SHOPP is continued in the 2000 SHOPP with the goal of reducing distressed pavement to 5,500 lane miles. Other goals include the continued reduction of fatal and injury accident rates, rehabilitation of roadsides and increased emphasis on reducing congestion and conflicts by operational improvements.

The 2000 SHOPP includes projects from the 1998 SHOPP Mid-cycle Revision and new projects which have approved Project Initiation Documents (PID's), Project Study Reports (PSR) or equivalent scoping documents, that identify the scope, cost and delivery schedule. Following is a summary of the programmed projects and reservations for adding projects during the next mid-cycle process and a comparison to the 1998 Ten-Year State Highway System Rehabilitation Plan.

Comparison of Funding in the
2000 SHOPP and
1998 Ten-Year Plan
Millions of Dollars 2000-01 through 2003-04

Program Categories	<u>Approved Programming**</u>	<u>Reservations</u>	<u>Total</u>	<u>1998 Ten-Yr Plan</u>
Traffic Safety	\$407	\$0	\$407	\$284

Roadside Rehabilitation	153	17	170	175
Operations	<u>393</u>	<u>88</u>	<u>481</u>	<u>426</u>
Total	\$3,252	\$125	\$3,377	\$3,558
Available for Amendments and Midcycle Programming			\$180	
Total 2000 SHOPP Program			\$3,557*	

* Excludes projects funded with Federal Emergency Relief (ER) and Transportation Enhancement Act (TEA) funds and Seismic Retrofit projects. Includes SHOPP amendments through April 25, 2000 and CTC allocations made at the May 2000 Commission meeting.

** Excludes \$1 million match for the Transportation Enhancement Act Program.

Exhibit B provides a year-by-year summary of this information.

CALIFORNIA DEPARTMENT OF TRANSPORTATION

2000 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM

The 2000 State Highway Operation and Protection Program (SHOPP) has been prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP. The 2000 SHOPP is a four-year program of projects for fiscal years, 2000-01 through 2003-04.

PURPOSE

The purpose of the SHOPP is to preserve and protect the State highway system.

PROGRAM LEVELS

Streets and Highways Code Section 164.6 requires the department to prepare a ten-year state highway rehabilitation plan for the rehabilitation and reconstruction, or combination thereof, of all state highways and bridges owned by the state. Funding levels in the 1998 Ten-Year SHOPP Plan with minor adjustments for new Department of Finance escalation rates were used as the basis for SHOPP funding in the 2000 STIP Fund Estimate approved by the California Transportation Commission at the August Commission meeting.

The 2000 STIP Fund Estimate provides \$3.6 billion for SHOPP funding over the four-year period 2000-01 through 2003-04. Projects are grouped into four categories: traffic safety, roadway rehabilitation, roadside rehabilitation and operations. A special emphasis is continuing to be placed on roadway rehabilitation. Within this category there are about 14,500 lane miles of pavement rehabilitation and maintenance needs. During the next four years the department plans to correct about 5,000 lane miles of rehabilitation needs through SHOPP projects. Taking into account the additional deterioration that will occur and work done through the Department's Maintenance program, it is forecast that there will be about 7,400 lane miles of pavement needs at the end of the 2000 SHOPP period.

PROGRAMMING POLICIES AND METHODOLOGY

The 2000 SHOPP was developed in accordance with the strategies outlined in the Department's Policy for Management of the SHOPP. New projects are programmed in the year the Department estimates that the projects can be delivered. All new projects have a Project Initiation Document (PID), a Project Study Report (PSR) or equivalent document, identifying a project's scope, estimated cost and delivery schedule.

The 2000 SHOPP includes non awarded projects carried over from the 1998 SHOPP, primarily programmed in fiscal years 2000-00 and 2001-02, and new proposed projects, primarily programmed in fiscal years 2002-03 and 2003-04. The cost and schedule of currently programmed projects have been updated through the SHOPP amendment process. The 2000 SHOPP reflects all cost and schedule updates through April 25, 2000 and CTC allocations made at the May 2000 Commission meeting.

2000 SHOPP SUMMARY

The following summary provides the updated number of projects and their value in millions of dollars for the remaining 1998 SHOPP Midcycle Revision projects as amended and new 2000 SHOPP projects for the four-year period, 2000-01 through 2003-04. A funding summary of the new 2000 SHOPP by fiscal year is shown in Exhibit B.

Program Categories	1998 SHOPP Midcycle as Amended*		New 2000 SHOPP Projects		Approved 2000 SHOPP Total		1998 SHOPP 10-Yr Plan 00-01/03-04**
	#	\$	#	\$	#	\$	\$
Traffic Safety	44	\$160	61	\$247	105	\$407	\$284
Roadway Rehabilitation	184	1,201	126	1,098	310	2,299	2,673
Roadside Rehabilitation	50	82	32	71	82	153	175
Operations	51	233	36	160	87	393	426
	----	-----	----	-----	----	-----	-----
Total	329	\$1,676	255	\$1,576	584	\$3,252	\$3,558
Reservations						125	
Available for Amendments and Midcycle Programming						180	

Total Approved 2000 SHOPP Program						\$3,557***	

* Includes amendments to the 1998 SHOPP Midcycle Revision through April 25, 2000 and CTC allocations made at the May 2000 Commission meeting.

** Costs were adjusted for the new Department of Finance escalation rate, 1.035%, used in the 2000 STIP Fund Estimate.

*** Excludes \$1 million match for the Transportation Enhancement Act Program.

Note: The program is developed in thousands of dollars and was rounded for this table.

RESERVATIONS

The 2000 SHOPP includes reservations of \$125 million over the four-year period. In addition \$180 million is available to allow amendment of new projects into the program prior to the 2002 SHOPP and will facilitate developing the 2000 SHOPP Midcycle Revision. Details about the reservations are shown in Exhibit B.

LONG LEAD TIME PROJECTS

The Department has identified 43 future SHOPP projects that involve a complex environmental process and require more than four years lead time for delivery of the construction contract documents. The need to start the environmental process prior to programming these projects in environmentally sensitive areas is necessary to achieve the goals identified in the 1998 SHOPP Ten-Year Plan. It is the intent to propose these projects for programming as soon as they can be delivered within a four-year SHOPP period. These projects are shown in Exhibit F.

GEOGRAPHICAL DISTRIBUTION

The department's selection of projects for inclusion in the SHOPP is based on needs rather than on geographical distribution. Funding for SHOPP projects is not subject to the north/south split or county share requirements of Sections 188 and 188.8 of the Streets and Highways Code. For information purposes, Exhibit C is a 2000 SHOPP Summary of the projects programmed in each county by the four program categories.

RESPONSE TO REGIONAL TRANSPORTATION AGENCY COMMENTS

A draft of the 2000 Proposed SHOPP was sent to regional agencies on November 19, 1999, for review and comment. Copies of the responses from regional agencies requesting changes in the SHOPP are included in Exhibit G. The following are responses to the comments received:

Amador County Transportation Commission

Comments: Supports the 2000 SHOPP as prepared. Will work with the Department to identify projects that could be funded from the Minor Program or maybe amended into the SHOPP.

Reply: Department will work with the Amador County Transportation Commission as requested.

Merced County Association of Governments and County Supervisor Kathleen MCrookham

Comments: Concerned that the Bradley Overhead structure in Merced County on Route 140 at post mile 36.2 was not programmed in the 2000 SHOPP.

Reply: The Bradley Overhead project can not be delivered in the 2000 SHOPP four-year period due to right-of-way issues. It has therefore been added to the 2000 SHOPP Long Lead List. This will allow the district to begin preliminary work prior to programming and allow the project to be programmed in the 2002 SHOPP. If the current schedule can be reduced the district will deliver the project early. Recent preventative maintenance will defer the structural need to replace the structure until it can be programmed in the 2002 SHOPP.

Toulumne Department of Public Works

Comments: The County of Toulumne Department of Public Works has been working with the Department to evaluate the need for 18 projects. The county requested a current update of the status of programming these projects.

Reply: The Department is continuing to work with the Department of Public Works to determine the viability of programming the 18 identified projects. One of the projects is eligible for SHOPP funding, improvements at the Junction of Route 49 and Route 120. A project study report is being prepared for this project. When completed this project will be evaluated along with other SHOPP projects for future SHOPP funding. Another project, a passing lane on Priest Grade, based on a cost benefit analysis will not qualify for SHOPP funding.

The remaining projects are Minor Projects. Two of these projects have been completed, three are scheduled for funding with Minor Funds, eight are still under investigation and three have been determined to not qualify for funding. The Department will provide specific information for each project in a letter to the Department of Public Works.

SHOPP MANAGED TEA PROGRAM

The California Transportation Commission, on October 28, 1999, split Transportation Enhancement Act (TEA) Program funds into several parts or shares. One share is a \$40 million SHOPP Managed TEA Program. Projects can be sponsored by the Department and by local agencies. To date 22 projects have been amended into the SHOPP. The SHOPP is providing a \$1 million match for SHOPP Managed TEA projects. Exhibit H lists 2000 SHOPP Managed TEA projects for the following two groups by county:

Department sponsored TEA projects (Accounting code 20.XX.204.735)

Locally sponsored TEA projects (Accounting code 20.XX.100.736)

PROJECT LISTINGS

Projects included in the 2000 SHOPP are listed by county in Exhibit I. Projects are sorted into the following four categories for each county:

Traffic Safety
Roadway Rehabilitation
Roadside Rehabilitation
Operations

EXHIBIT A

January 31, 2000

California Department of Transportation

Policy for Management of the State Highway Operation and Protection Program (SHOPP)

1. Seismic retrofit projects: Completion of the seismic retrofit program is one of the top priorities for the Department. Proposition 192 provides special funding for the Phase 2 and toll bridge seismic retrofit projects. Since the Proposition 192 funds are dedicated to this special purpose, they are being managed outside of the overall SHOPP program. Every seismic retrofit project will be proposed for the allocation of funds when it is delivered.
2. Traffic safety projects: Every identified traffic safety project will be programmed in the year in which the Department estimates that it can be delivered. Every traffic safety project will be proposed for allocation of funds when it is delivered, even if that is earlier than the year programmed. The SHOPP may include unprogrammed reservations to meet the anticipated needs for traffic safety projects not yet identified. This strategy applies only to those projects meeting the Department's specific criteria for traffic safety projects (i.e., safety index greater than 200, or equivalent safety warrant).
3. Other SHOPP projects: All SHOPP projects other than seismic retrofit or traffic safety projects will be programmed according to rehabilitation need and other program priorities, except that a project will not be programmed earlier than the year in which the Department estimates that it can be delivered.
4. Level of funding: The Ten-Year State Highway System Rehabilitation Plan and the most recently adopted STIP Fund Estimate establish the funds available for SHOPP purposes. Whenever the Department identifies a project cost increase or a new project to add to the SHOPP, it will identify the source of funding for the increase or new project, whether from an unprogrammed SHOPP reservation or from the deletion or decrease in cost of another project or projects.
5. Project cost and scoping: No project will be included in the SHOPP or the Long Lead list unless the Department has a completed Project Initiation Document (a Project Study Report (PSR), Project Study and Scoping Report (PSSR), or equivalent document) identifying a specific project scope and its estimated cost and delivery schedule.

6. Review of project programming: The Department will develop its biennial proposed SHOPP in accordance with these strategies. In addition, the Department will conduct a comprehensive review of the SHOPP in accordance with these strategies at least once between approved SHOPP's. This means that the Department may propose to advance, slip, or delete projects included in the prior SHOPP, based on a review of the priorities, estimated costs, and estimated delivery dates of both old projects and new candidate projects.

The objectives of this strategy are:

- o to develop a SHOPP program that addresses the needs identified in the Ten-Year State Highway Rehabilitation Plan;
- o to assure that state resources used for the operation and protection of the state highway system are focused on the highest priority needs;
- o to assure that the SHOPP, consistent with the STIP, reflects a specific project delivery plan and commitment; and
- o to provide goals and incentives for the identification of effective SHOPP projects and for the management of SHOPP project costs and schedules.

** Funding is consistent with the 1998 Ten-Year Plan and the 2000 STIP Fund Estimate.

2000 SHOPP
Fund Reservation Descriptions

Traffic Safety

Funds for traffic safety and median barrier. Projects must have a Safety Index of 200 or greater, or meet specific warrants in order to qualify for the Traffic Safety category. No reservation at this time. New projects will be funded from funds identified for amendments or Midcycle programming.

Roadway Rehabilitation

Current reservations are for unforeseen emergency damage correction projects that are not funded with Federal Emergency Relief funds.

Roadside Rehabilitation

Current reservations are for relinquishment of special environmental mitigation sites to agencies which are better prepared to provide for the long-term maintenance responsibilities.

Operations

Current reservations are for (1) commercial vehicle enforcement facilities (weigh stations) consistent with the 10-Year Weigh Station "Inventory of Needs"; (2) hazardous material cleanup not associated with a programmed SHOPP or STIP project; (3) office facilities code requirements consistent with current design standards and Americans with Disabilities Act (ADA) requirements; (4) Rail Road Grade Crossing Program; and (5) \$800,000 per year for Surface Mining and Reclamation Act (SMARA) obligations.

AMADOR COUNTY TRANSPORTATION COMMISSION

January 5, 2000

Jim Nicholas
Program Manager
Transportation Programming
1120 N Street, Room 4400
Sacramento, CA 95814

Attention: Mike Callahan

Subject: 2000 Draft SHOPP
Amador County

Dear Mr. Nicholas:

Thank you for the opportunity that you extended to the Amador County Transportation Commission (ACTC) to provide input concerning the year 2000 Draft State Highway Operation and Protections Program (SHOPP). On behalf of the Transportation Commission I reviewed projects that are proposed for Amador County and I met with Caltrans District 10 Division Chief of Maintenance and Operations, Dinah Bortner concerning this subject.

Amador County is somewhat concerned to note that all projects in Amador County proposed by the draft 2000 SHOPP are rehabilitation projects and there are no new State highway operational or safety improvements being proposed at this time. A regional traffic analysis that was carried out in preparation of our 1996/97 Regional Transportation Plan suggests that there are a number of SHOPP eligible State highway improvements needed in Amador County if adequate levels of service and safety are to be maintained on our system.

Jim Nicholas
2000 Draft SHOPP
January 5, 2000
Page two

In my meeting with Dinah Bortner I was made aware of the department's need to invest in the long-term maintenance of its existing State highways. This letter is therefore intended to support the roadway rehabilitation projects identified in the Draft 2000 SHOPP as prepared. During the meeting it was also agreed that Caltrans and the Amador County Transportation Commission will work together to further analyze some of the projects identified in our RTP and to possibly fund some of them out of the MINOR program and/or a future SHOPP amendment.

Once again, the ACTC appreciates this opportunity to communicate with Caltrans concerning improvements to Amador County's regional transportation system

Sincerely,

Charles E. Field
Executive Director

Attention: Mike Callahan

Dear Mr. ~~Nicholas~~ ^{Callahan}:

I have reviewed the Draft 2000 State Highway Operation and Protection Program, and I am dismayed that the replacement of the Bradley Overhead, Bridge Number 39-0044 on State Route 140, was not included in this proposal.

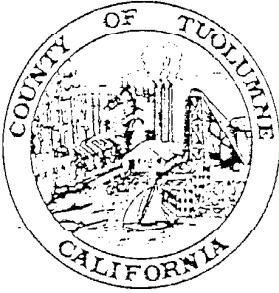

Bradley Overhead is a 69-year old structure that does not satisfy current requirements of the Highway Design Manual or the Route Concept Report. It has numerous non-standard attributes, including: no shoulders, short stopping & sight distances, steep grades, and no pedestrian or bicycle access.

The public has repeatedly expressed a strong desire for a safer bridge designed to modern standards. The fatal accident rate for 1995-1998 is higher than the statewide average. Additional traffic associated with a new University of California campus will only exacerbate the existing safety problems.

The bridge must be replaced and the appropriate funding program for this project is the SHOPP. I am requesting that Caltrans reconsider the Bradley Overhead project and include it in the 2000 SHOPP.

Thank you for your attention to this important matter.

January 10, 2000

Dear Mr. Callahan,

The Tuolumne County Regional Transportation Agency (RTPA) has recently received the Draft 2000 State Highway Operation and Protection Program (SHOPP). Upon our review, only one Roadway Rehabilitation project in Tuolumne County has been considered for funding.

The Tuolumne County and Cities Area Planning Council (TCCAPC) has worked with Caltrans District 10 to develop candidate projects for programs that Caltrans administers. Several of these proposed projects have been candidates since 1998. Unfortunately, the County of Tuolumne has received no recent information as to their status.

Attached for your review is a list of safety and operational projects that we have been working with Laurie Jurgens since January 1998. It appears that the last discussion of proposed projects occurred in April 1999. Yet, the status of many of these projects remains unresolved, and we are unclear on their competitiveness in the SHOPP.

The reason for this inquiry is to generate a response to the stated concerns by local officials. The SHOPP Program is a mechanism of highway preservation. As administrators of such programs it is our combined responsibility to plan, develop, obtain funding and see projects through to implementation. Therefore, it should also be our obligation to respond to concerns expressed by local officials with expedience and timeliness.

Please contact me at Tuolumne County Department of Public Works, Transportation Division at (209) 533-5601 if additional data is needed. Thank you for your consideration of this matter.

Respectfully,

DARIN GROSSI
Assistant Director of Transportation

c: Peter Rei, Director of Public Works
Adam Emmer, Transportation Planner
